

How do all my devices behave during a status event?

Status	Pager	Applications	PageCopy
Available	 <p>Paging as usual. Callers will hear a prompt stating the user can enter their message</p>		
Out of Office	 <p>Paging as usual. Callers will hear a prompt stating the user is Out of Office and their response may be delayed</p>		
Unavailable	 <p>No paging. Callers will hear a prompt stating that the user is Unavailable (until date/time) and cannot receive any messages at this time</p>		
Forward	 <p>No paging. Callers will hear a prompt stating the user is currently forwarding messages to xxx-yyy-zzzz (until date/time). Please enter your call back number</p>		
Referral	 <p>No paging. Callers will hear a prompt stating the user is referring their messages to another associate. Enter a phone number to receive the referral number</p>
